## OBJECTIVE

I'm a motivated/curious individual who likes to solve problems. I have a working knowledge of Web development using MERN stack.

## SKILLS

JavaScript

Nodejs

Reactjs

MongoDB

Github

MaterialUI

Express

## PROJECTS

### Fair Market For Farmers (AWS Hackathon)

2021

<https://github.com/ajaynair1998/fair-market-for-farmers>

A web application where farmers can sell their produced goods at a profit without a middleman.

The farmers can just sign up using their mobile Number/email and can just start posting the goods they want to sell.

They were guaranteed profits since we implemented the minimum prices by getting the data from <https://farmer.gov.in/>.

- This project was done with Reactjs for frontend and Express for backend.
- Added authentication using JWT and used mongoDB for storing the data.

### Patient Information Management System

2020

<https://github.com/ajaynair1998/Patient-Information-Management-System>

An offline desktop application made using react and electronjs to manage patient information.

The app uses SQLite for storing the patient.

The App is currently being used in a Hospital for logging patient info.

## EDUCATION

### B.Tech in Computer Science and Engineering

College Of Engineering Chengannur

2017 - 2021

### Higher Secondary School (XI - XII)

LEO XIII HSS

2014 - 2016

## EXPERIENCE

### Internship

Nest Cyber Campus

kochi,kerala

I was able to develop my python programming skills. I also acquired a deeper level of understanding of the real-world applications of the Raspberry Pi.

### Software Engineer

Dexlock

2021 kochi,kerala,india

## ACHIEVEMENTS

 100+ Leetcode Questions Solved

<https://leetcode.com/ajaynairarun/>

Certified Skills on Hackerrank

Javascript and Python skill certification from hackerrank.

## PASSIONS
